To: Calebwood Cs <calebwood.cs@gmail.com>

Hello Caleb

I am Sharon Alvin, an online recruiter and resume database register-er/distributor. In regards to your profile from angel.co, The management of Databricks is pleased to inform you that your resume has been reviewed and we believe with your acquired skills, you are a great fit at Databricks for the Software Engineer Remote Position.

About Databricks:

Databricks is the data and AI company. More than 7,000 organizations worldwide — including Comcast, Condé Nast, H&M, and over 40% of the Fortune 500 — rely on the Databricks Lakehouse Platform to unify their data, analytics and AI. Databricks is headquartered in San Francisco, with offices around the globe. Founded by the original creators of Apache Spark™, Delta Lake and MLflow, Databricks is on a mission to help data teams solve the world's toughest problems.

Your Job Responsibilities:

As a software engineer, you will work with your team and product management to make insights from data simple. We are looking for engineers that are customer obsessed, who can take on the full scope of the product and user experience beyond the technical implementation. You'll set the foundation for how we build robust, scalable and delightful products.

We have a cultural foundation built on diversity, inclusion, and innovation and we want you and your ideas to thrive at Databricks.

What we look for:

- Experience with HTML, CSS, and JavaScript.
- Passion for user experience and design and a deep understanding of front-end architecture.
- Comfortable working towards a multi-year vision with incremental deliverables.
- Driven by delivering customer value and impact.
- Experience with modern JavaScript frameworks (e.g., React, Angular, VueJs/Ember).
- Strong familiarity with server-side web technologies (eg: Node.js, Java, Python, Scala, C#, C++,Go, JVM).

- Good knowledge of SQL.
- Experience with cloud technologies, e.g. AWS, Azure, GCP, Docker, Kubernetes.
- Experience in architecting, developing, deploying, and operating large scale distributed systems.

Benefits

Databricks provides a competitive compensation package along with a comprehensive benefits program that provides the support needed for you and your loved ones. It's likely that you don't think about benefits every day; however, we believe in work-life integration and offer a flexible work environment. Together with an amazing team who believes in our mission and values transparency, autonomy, and inclusiveness, these benefits make Databricks an incredible place to work. At the time of this posting, this role is eligible to participate in the following benefits:

- Comprehensive health coverage including medical, dental, and vision
- 401(k) Plan
- Equity awards
- Flexible time off
- Paid parental leave
- Family Planning
- Gym reimbursement
- Annual personal development fund
- Work headphones reimbursement
- Employee Assistance Program (EAP)
- Business travel accident insurance

Upon your acceptance of this letter, you will be requested to proceed to an online interview/screening via Skype to be conducted by the Company's Talent Acquisition Lead Geoffrey Zunker to make sure that this role would be a good fit for you to build a career.

CLICK HERE

Click on the Skype link above to set up a profile if you do not have one thereafter you are to contact him. You will be discussing the Company, Job Details, Pay, and Benefits during your online interview and briefing.

Your verification code is (DCSE/J22), this would serve as your identification number throughout the online hiring process.

I wish you the best of luck and we look forward to having you on the team!

Best regards,
Sharon Alvin
